

Shure BT TRUE MMCX EARPHONE ACCESSORY

Enjoy wireless freedom, from any Shure Sound Isolating earphones, with the Shure RMCE TW2 earphones.

Connect to any Shure Sound Isolating earphones

For wireless freedom for your existing Shure Sound Isolating earphones, simply plug in these wireless adapters. Thanks to Bluetooth 5.0 connectivity, the Shure RMCE TW2 plug-ins deliver true wireless freedom. Simply pair with your smartphone or other device and start listening – free from cables. Thanks to your earphones' connection points, you can easily refit cables for certain situations, such as airplane entertainment systems.

Customise the sound with ShurePlus PLAY

Shure's ShurePlus PLAY app (available for Apple iOS and Android) adjusts the EQ and Environmental Mode levels for your perfect sound. Much more than this, it also acts as a hi-res media player. Any locally stored music can be arranged into playlists and played through the app's EQ settings. Compatible with 24 bit WAV and FLAC files, this is an ideal way to take control of your hi-res music.

Snug fit

Designed to maintain the 'over-the-top' fitting of your Shure Sound Isolating earphones, the RMCE TW2 adaptors keep your earphones firmly in position.

Up to 8 hours battery life

With up to eight hours playback, these earphone adapters easily cope with the longest journeys.
