

EcoFlow RIVER Max Portable Power Station

Share staggering power Equipped with two wall outlets, you can share 576Wh capacity and 600w output keeping everyone's favourite gear powered for longer.

Lightning-fast recharge Through EcoFlow's X-Stream technology you can get a rapid recharge rate. Go from 0-80% in under 60 minutes. Using a standard plug socket, reach 100% charge in a mere 1.6 hours.

Fast, sustainable energy Looking for quick, green charging alternatives? The RIVER Max has two options. Either integrate two EcoFlow 110W solar panels to recharge within 3-6 or one 160W solar panel to recharge in 4.8-9.6 hours.

Charge a multitude of devices Turn on X-Boost and power devices up to 1800W. This technology allows you to power almost all household appliances and in some cases, power tools.

Detach and go The modular design allows you to tailor the RIVER Max to your needs. With a detachable battery, take RIVER Max on your next outdoor adventure, and remove the battery when you need to save weight.

Hit the outdoors with RIVER Max and keep all your devices powered on at once. With a detachable extra battery, you have up to 576Wh of capacity that charges to full in a record-breaking 96 minutes flat.

The world's fastest charging portable power stations

EcoFlow have the world's fastest charging portable power stations. RIVER Max charges from 0-80% in under an hour, or to full in 96 minutes flat.

Go lightweight

Remove the extra battery from the base of your unit to go lightweight. Trim down to a 288Wh capacity, reducing the weight by (5.5 lbs) 2.5 kg whenever you're on the go.

The centerpiece of your adventure

Power up to 9 devices at once with all the ports you'll need. Sporting a 576Wh capacity, you'll have enough juice to charge your phone 42 times, charge your drone 6 times, or make 24 cups of coffee with a coffee maker. Just don't drink them all at once.

More power to you

EcoFlow's proprietary X-Boost technology is a game-changer. Switch it on to power high-wattage appliances up to a whopping 1800W. That's enough to power a hairdryer, a vacuum cleaner, or even a lawnmower.
