

EcoFlow DELTA Pro Portable Power Station

Colossal capacity DELTA Pro harnesses a staggering 3.6kWh capacity which can be expanded up to 25kWh. This combined with its direct integration with your home via the Smart Home Panel allows you to always keep the power on.

Power almost anything When it comes to AC output DELTA Pro is the industry leader. With 3600W, it's easy to power heavy-duty appliances from microwaves to AC units. Looking for even more power? The EcoFlow Smart Home Panel, or Double Voltage Hub allows you to pair two units together to hit a massive 7200W output.

An intelligent ecosystem DELTA Pro is more than just a backup power supply. It's an expandable ecosystem that can integrate extra batteries, smart generators and the Smart Home Panel, giving you more power options than ever before. Control it all in a few taps with the EcoFlow app.

Unparalleled charging speeds Enjoy the versatility of DELTA Pro with FlowCharge. With 6 different charging options from renewable energy sources to traditional wall outlets, you can charge anywhere, any time. It's the first of its kind that can be charged from an EV station, and thanks to MultiCharge you can combine charging options to reach a 6500W charge.

A smarter home The beating heart of the DELTA Pro ecosystem is the EcoFlow Smart Home Panel. It acts as an intermediary between your DELTA Pro(s) and up to 10 home circuits. In the event of a blackout, the panel automatically draws power (up to 25kWh) from your DELTA Pro ecosystem. This keeps all of your chosen circuits powered, giving you the ideal home backup plan.

Introducing the world's first portable home battery with an expandable ecosystem for home backup, smart energy management, lower energy bills, and more. The EcoFlow DELTA Pro is the next leap in portable power technology, offering you power security

Power for any situation.

From tailgate power to extreme blackouts that last for days on end, DELTA Pro delivers up to 25kWh of capacity. With that, you're covered for any situation. That's the industry gold standard.

All the AC output you'll need.

A single DELTA Pro unit packs a 3600W AC output, which can be expanded up to 4500W with X-Boost technology. Power 99.99% heavy-duty devices at home, outdoors, or at work. You can even pair two units together to achieve 7200W with Smart Home Panel.

The world's fastest charging portable power station.

MultiCharge delivers record-breaking speeds at 6500W. To reach 6500W, you can opt for these charging methods.

Fully charge in 1.9 hours.

EcoFlow's X-Stream charging technology isn't just fast, it's safe too. The battery management system ensures safety and longevity while you fully charge DELTA Pro from a standard AC wall outlet in 1.9 hours*.

Charge up at thousands of EV stations worldwide.

For the first time ever with a portable power station, you can charge up at thousands of EV stations worldwide. This unique charging method gives you up to 3400W fast charging on the go.

Go renewable with 1600W solar charging.

EcoFlow's suite of solar products give you a cost-effective renewable energy source to stay powered. You can use solar energy to charge DELTA Pro in just 2.8-5.6 hours. DELTA Pro has a wide voltage range from 11-150V, which makes it compatible with 90% of third-party solar panels with solar connectors. And when the weather gets unpredictable, the smart maximum power point tracking (MPPT) automatically adjusts, maximizing your solar generation at any time of the day.

Get emergency backup power with the EcoFlow Smart Generator.

The EcoFlow Smart Generator serves as an emergency option that integrates with your DELTA Pro ecosystem. It auto-starts when your DELTA Pro hits a low level of charge, recharges your DELTA Pro, and stops the engine all by itself once your DELTA Pro hits a full charge. Compared to a traditional gas generator, the EcoFlow Smart Generator delivers less energy loss, faster charging and higher efficiency.

A battery that lasts for years on end.

DELTA Pro sports a brand-new LFP battery with 6500 cycles, which means you can use DELTA Pro for years and years before your unit reaches 50% of the original capacity. EcoFlow's battery management system provides real-time analysis and regulation of voltage, current, and temperature. This unique protection mechanism makes DELTA Pro an incredibly safe and efficient home battery.

Multiple ways to control & monitor.

Control DELTA Pro either on the unit itself, using the remote control accessory, or unlock a ton of customization via the EcoFlow app. On the app, you can access your power settings, such as charging and discharging levels, AC charge speeds, control the Smart Generator and a whole lot more.

The world's first portable home battery ecosystem.

DELTA Pro's expandable ecosystem provides you with power during blackouts, customizable energy around the clock, and lower energy bills. How does it achieve all this? With a selection of extra batteries, smart generators, solar trackers, wind turbines, a smart home panel, and more. From backup power to reducing your reliance on the grid with green alternatives, the DELTA Pro ecosystem can be customized to your needs.

Introducing the EcoFlow Smart Home Panel.

The new EcoFlow Smart Home Panel is the heart of the DELTA Pro home battery ecosystem. It integrates up to two DELTA Pro units with 10 home circuits. Each DELTA Pro can be connected with extra batteries, solar panels, or smart generators, giving you uninterrupted power during blackouts, smart energy management for your critical loads, and lower energy bills.

Uninterrupted home backup.

With a fast 20ms switchover time, DELTA Pro and the Smart Home Panel can keep you powered on during a blackout. All the while, the EcoFlow app keeps you in the know, letting you select and modify your device priorities.

Smart Energy Management.

The EcoFlow DELTA Pro ecosystem stores energy day and night, reducing your reliance on the grid and lowering your energy bills by combating time-of-use rates. It integrates directly with your home using the EcoFlow Smart Home Panel. The EcoFlow app gives you a smart breakdown of your energy habits, and you can customize your energy usage for any type of situation.

RV living made easy.

With DELTA Pro, you can take home with you, wherever you go. It features wheels and a suitcase-esque extendable handle that makes transport easy. And if you're looking for a complete power solution for RV road trips and outdoor adventures, DELTA Pro comes with a 30A Anderson port and AC outlets.

Power that means business.

Not only does DELTA Pro provide home backup and off-grid power, it also gives you a secure power source for any type of professional work. Whether you're working at home or outdoors, from DIY to professional projects, DELTA Pro helps you get the job done.

Specs

Net Weight

Approx. 99lbs/45kg

Capacity

3600Wh

AC Output

4 outlets, 230V/16A, 3600W total (Surge 7200W)

USB-A Output

2 ports, 5V, 2.4A, 12W Max per port

USB-C Output

2 ports, 5/9/12/15/20V, 5A, 100W Max per port

DC5521 Output

2 ports, 12.6V, 3A, 38W Max per port

AC Charging Input

2900W Max, 230V~12.5A

Car Charging Input

Support 12V/24V battery, 8A

Cycle Life

6,500 cycles to 50% capacity, 3,500 cycles to 80% capacity

Dimension

25*11.2*16.4 in/63.5*28.4*42cm

Extra Battery

Support up to two DELTA Pro Smart Extra Battery/Smart Generator

Max Device(s) Power Supported by X-Boost

4500W

USB-A Fast Charge

2 ports, 5V, 2.4A / 9V, 2A / 12V, 1.5A, 18W Max per port

Car Power Output

12.6V, 10A, 126W Max

Anderson Port

12.6V, 30A

Solar Charging Input

1600W Max, 11-150V, 15A

Battery Chemistry

LFP

Connection

Wi-Fi, Bluetooth, wired
