Hallo Intronics!

X (code) is needed

Hoe kunnen we je helpen?

- Solid aluminium design

**Extend your display to two additional HDMI monitors with this AC7013 USB-C 4K multiport adapter with MST support. This adapter extends or clones your laptop by 2 additional HDMI monitors. The multiport adapter is USB powered and adds a USB-A data port to your device.**

**The AC7013 is your most portable solution for connecting one or two additional displays. Often your laptop at home is wirelessly connected to the internet, so all you need to do is connect your screens, mouse and keyboard. Connect the screens and the dongle of the wireless mouse & keyboard set and you are ready to work.**

#### **Extend to two 4K HDMI monitors using MST support**

The multiport adapter supports MST (Multi-Stream Transport), allowing you to extend your desktop with two HDMI monitors. Connect a single monitor with a maximum resolution of 4K @ 60Hz or two monitors with a maximum resolution of 4K @ 30Hz.

#### **No external power supply needed**

This solid aluminium hub is USB powered, no external power supply required. Please make ensure your notebook's USB-C port supports DP Alt Mode.

#### **Connect USB-A peripherals**

The AC7013 adds a USB-A 3.0 (5Gbps) port to your computer. Connect peripherals such as a mouse or keyboard to this hub.

Note: MacOS does not support MST. This means that the view can be extended to one additional monitor. MacOS supports cloning to two monitors.
