### Color i-Type Film

- Modern film for modern instant cameras. 8 instant photographs to bring your moment to life in dreamy Polaroid color and finished in that iconic white frame. This color i-Type film is compatible with the Polaroid Now, Polaroid Now+, the Polaroid Lab and more\*. It's battery-free so it won't work for vintage cameras, but it will work for your budget.

## The original format

- 8 instant photographs in that original Polaroid square format and finished in a white frame.

## Battery-free film

- Our i-Type cameras come with a rechargeable battery, so unlike our 600 films, this film doesn't include a battery.

## Develops in 15 minutes.

- Watch one of the most complex chemical processes in the world bring your moment to life.
