SECTION 13: Disposal considerations**13.1. Waste treatment methods****Waste from residues/unused** The waste codes/waste designations below are in accordance with EWC. Waste must be

products	delivered to an approved waste disposal company. Waste is to be kept separate from other types of waste until its disposal. Do not throw waste product into the sewer. Where possible recycling is preferred to disposal or incineration. Empty, uncleaned packaging need the same disposal considerations as filled packaging. For handling waste, see measures described in section 8. Dispose of in accordance with local regulations.
Contaminated packaging	Do not reuse empty containers.
